Cycle A		P E				
<p>At Limehurst School we follow the scheme GET SET 4 PE. The curriculum planning in PE is carried out in three phases (long-term, medium-term and short-term). The long-term plan maps out the PE activities covered in each term during the key stage. The PE subject leader works this out in conjunction with teaching colleagues and pupils in each year group. Together we create a broad and balanced curriculum that is exciting for our children to learn through. The medium-term plans give details of each unit of work for each term. These schemes of work provide an overview of the unit, links to other areas of the National Curriculum and assessment criteria for that unit. The short-term lesson plans provide opportunities for children of all abilities to develop their skills, knowledge and understanding in each activity area.</p>

<b>EYFS Overview</b>	<p>Physical activity is vital in children’s all-round development, enabling them to pursue happy, healthy, and active lives. Gross and fine motor experiences develop incrementally throughout early childhood, starting with sensory explorations and the development of a child’s strength, co-ordination, and positional awareness through tummy time, crawling and play movement with both objects and adults. By creating games and providing opportunities for play both indoors and outdoors, adults can support children to develop their core strength, stability, balance, spatial awareness, co-ordination, and agility. Gross motor skills provide the foundation for developing healthy bodies and social and emotional well-being. Fine motor control and precision helps with hand-eye co-ordination, which is later linked to early literacy. Repeated and varied opportunities to explore and play with small world activities, puzzles, arts and crafts and the practice of using small tools, with feedback and support from adults, allow children to develop proficiency, control, and confidence.</p>
